WAN CCS4 mysql DB CCS PORTALs.

10.124.40.204   ccs4

Query1) CCS portal is not working.

more frequently due to disk full issue on server so need to monitory disk for such issues proactively.

Troubleshooting .

Query1) CCS root partition full.

Path   /backups/mysql/

On above location all gz file are location.

Troubleshooting : On periodically bases older file of every 3 month deletion should be happen

Query3)

Login to CCS4 server - 10.124.40.204

Stop mysql service

Goto directory /var/lib/mysql/

Locate ERROR MYI file in these subdirectory

Eg. In below screen shot its activity.MYI

/var/lib/mysql/faultmanagement/activity.MYI

So Goto /var/lib/mysql/faultmanagement/

Now run

[root@ccs4 faultmanagement]# myisamchk -r activity.MYI

[root@ccs4 faultmanagement]# myisamchk -r activity.MYI

- recovering (with sort) MyISAM-table 'activity.MYI'

Data records: 259962

- Fixing index 1

Found block that points outside data file at 59050972

Start mysql service
